1. Intruduction and summary

H-sektionen is an Android app developed to keep you up to date with everything you need to know concerning campus life at Campus Lindholmen. The app gives you the latest news of what is happening around the campus as well as information about upcoming events and where to eat your lunch. Do you have a brilliant idea of how to improve something on the campus? Send your idea to Styret straight from the app!

Other features include:

- Upcoming pub events in "11:an"
- Opening hours
- Useful links
- Contact information to memebers of Styret
- Report faulty equipment

Continue reading to get instructions on how to use the app.

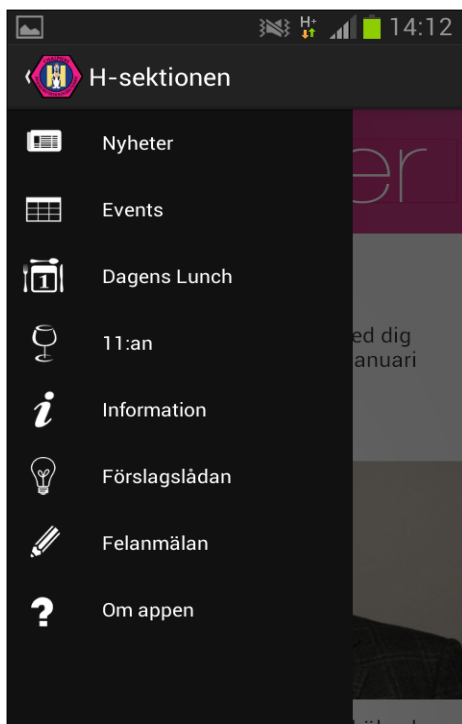

2. Starting the app

To start the app, look for the icon named H-sektionen (shown in the picture) on your Android device and press on it. The app should start and the Nyheter-view should load.

4. Using the menu

The menu can be accessed from every view in the application and is used to access the different features in the app. To open the menu, slide your finger from the left side of the screen to the right or simply click the button in the upper left corner. Once you see the menu click on the desired feature. To close the menu, simply press the icon in the upper left corner, slide your finger from the right side of the screen to the left or press your phones back-button.

3. Nyheter

Once you start the app you will see the news feed with general information. Simply scroll down the list to load additional news posts.

5. Events

This view will show you upcoming events. To read additional information about the event, click on the event to expand the post. Click on the post again to collapse it. Scroll down to view more events.

6. Dagens Lunch

This view shows you the different dishes served at Kokboken and L's Kitchen. Scroll to view more dishes.

7. 11:an

This view shows you upcoming events in the local pub 11:an. Press on an event to display more information. Press on the event again to collapse it. Scroll down for more events.

8. Information

In this view you can find opening hours and useful links as well as contact information to the members of Styret. To open a link simply click on it and it will open a web browser. Scroll down for more information.

9. Förslagslåda

In this view you can send ideas and suggestions to H-sektionen. Type in your message in the text box and click the send button to launch an email client of your choice and send the mail.

10. Felanmälan

If you find faulty equipment on the campus you can use this view to send a fault report. If you scroll down you can find information about what to report and where to send the fault report. Once you're ready to send the report, write a message describing the error in the textbox and then click the send button to launch an email client and send the report.

11. Om appen

Here you can find information about the app like what version is installed, who the developers are and a video about the creation of the app. To start the video, press the "se filmen"-button and a web browser will start and display the video.
